WEBINAR

Best Practices in Tapered Polyiso Insulation Webinar

October 10, 2018

1:00 – 2:00 p.m.

SPEAKER

Al Carr

Hunter Panels

Al Carr of Hunter Panels will discuss the benefits and challenges of using tapered polyisocyanurate insulation in roofing installations.

LEARNING OBJECTIVES:

- Understand the features and benefits of Tapered Polyisocyanurate Insulation
- Identify and understand key terms in a Tapered Insulation system: panel, profile, and slope.
- Identify specific design questions to consider when comparing Tapered quotes: Minimum R Value, Slope, Squares of Fill, 2 Way or 4 Way Design.
- Accurately compare different Tapered Designs and quotes.
- Understand what a cricket is and how they work.
